March 2007

Dear Santos,

Thank you for your work in removing the popcorn from our ceilings, in the entire house, for retexturizing and painting our master bedroom. The interior looks like new! We also appreciate that you took the time to listen to our concerns and fixed the little things without complaint. Though your team was small, you were professional and timely from the first estimate to the clean up.

Some of our family acquaintances have asked whom they can hire for their acoustic ceiling and paint work and we would recommend your services. Good luck to you and your family. We hope to work with you again.

Regards,

Nancy & Kevin, Walnut Creek
